

Diagram: The Carbon Cycle

Use both sides of a piece of Copy Paper

Front Side Directions:

Describe the steps of the Short Term and Long Term Carbon Cycle

Pg's 37+38

Name: _____
Period: _____

The Short-Term Carbon Cycle

- ① From the Atmosphere to Plants
Photosynthesis.
- ② From Plants to Animals Eating.
- ③ From Animals to the Atmosphere
Respiration.
- ④ From Animals to the Atmosphere
Decomposition of waste and remains.

The Long-Term Carbon Cycle

All of the Short-Term carbon cycle
+ plus...

- ⑤ From Plant and Animal Remains to the Geosphere Fossil Fuels
coal, oil, and Natural Gas.
- ⑥ From the Geosphere to the Atmosphere Combustion of Fossil Fuels.

Back Side Directions:

Diagram, label, and color the steps of the Short Term and Long Term Carbon Cycle.
