

**WEB QUEST: How communities manage water resources.
Find this web quest on the class website under Water Quality.**

<http://srmsearthscience.weebly.com/water-quality.html>

Directions: Research and report how communities manage water resources (e.g., distribution, shortages, quality, flood control) to address social, economic, and environmental concerns.

Distribution: Find out about our water sources and how it gets to your tap.

1.

2.

3.

Shortages: Find out about water saving ideas in your home and yard.

1.

2.

Flood Control: Find out about West Jordan's Stormwater Division.
